

Raja Rogers Meeting Notes
May 1, 2007

Raja Rogers	It's been 2 weeks since we met. Any questions?
Regine	David Lynch foundation policy is to teach children age 12 and up. At the local school that is interested in introducing TM, there are 6 th , 7 th and 8 th graders – so some children are under 12. Principal doesn't want to change whole school set-up in order to introduce TM.
Raja Rogers	Policy is that children need to be 12 to start. Dr. Hagelin is trying to check on this.
Regine	Ray thought that that age group (middle school age) was more open-minded and has fewer diversions than teenagers.
Raja Rogers	The whole push is to have more Sidhas. M considers that the physiology is such that 12 years is the age when they learn TM and then in a yr or so, pick up the Sidhi program.
Regine	We would like a whole school approach – there are 6, 7 and 8 th grades.
Raja Rogers	Raja Kingsley has had success. They only have 15% of the school meditating so far, but the results have been amazing. They will teach more kids at a faster pace next yr due to changes being made in the schedule.
Carol	The age cut-off is a concern for a number of us working on this project. When we have to cut-off an entire grade, we may not have enough numbers to start a program. The projects are moving slower than expected due to the fact that the ground is not as fertile as we expected. So adding more age groups would help the success of the projects.
Raja Rogers	<p>Will work on it. David Lynch and Donovan are in NY. We had a wonderful event at 70 Broad St. They gave a 1.25 hr presentation. We have huge banners, "Global Financial Capital of New York." Many investment bankers, financiers, etc. have come by. In the adjacent building, we'll be opening a health spa and MAPI store and offering vaidya consultations and MVVT and TM.</p> <p>I was so overwhelmed with the wonderful gift everyone contributed to – a new iPhone. Whenever I use it, I will think of you.</p> <p>Maharishi has been very, very strong in the past two weeks on MEC's– he's re-emphasizing the Maharishi Enlightenment Centers. He's going to be calling the Peace Palaces, "Invincibility Centers." We may even be calling the MEC's, "Invincibility Centers." He's interested in finding locations. And we are interested in establishing MAPI storage areas in the field. If you happen to see a properly oriented space, call me.</p>
Jeff Murphy	We had a nice birthday celebration for Lakshmi a couple of weeks ago. We took her and Dr. Rao to the local Hindu temple. Then that evening we had our monthly gathering of meditators and we all met with her in the Brahmastan of the Peace Palace. She said that no one had celebrated her birthday like that.

	We'd like to have them be busier or have people come here for AT or MVVT.
Raja Rogers	Let's think about that with Elaine.
Elaine	International talked with Dr. Rao and said that now is a good time to travel and do MVVT. There doesn't need to be 5-6 AT's in order to have a tour. You just need to have good numbers of AT's and MVVT's. Please call if you want a tour.
Raja Rogers	Maharishi was really, really excited when he talked with the Raos and heard about the results with MVVT. I want to encourage everyone to take advantage of the Raos. Maharishi really wants to promote MVVT. As consciousness rises, it is becoming more and more effective due to the support in the environment.
Stuart	One of the people we taught this weekend wants to join the CIC. He'll be our 4 th person. The course will start the last weekend in September and the first two weekends of October. Anyone who has a meditator interested in the Sidhis, please contact us.
Raja Rogers	Our Call Center has been overwhelmed with leads. So we will have some more people answering phones. A week and a half ago, Bobby Roth put the TM book online at www.tm.org . People can download the TM book, but they have to enter their email address and phone number. So we can contact them. Anyone that you can encourage to come to the Recertification Course would be really great.
Stuart	It is very good that all of the people at the Call Center are collecting the callers' email addresses. That makes it easier to keep in contact with them.
Dori	I taught 3 people last weekend in Atlanta. One of them wants to get a school program going. When Linda and Mark are in Atlanta to teach, the Sidhas would like to get a group program organized.
Raja Rogers	One of Maharishi's primary goals is to create new Sidhas so they can fly in coherence creating groups. It's important to inspire everyone to join the CIC in Boca Raton in Sept.
Stuart	May 11-13 there will be a Residence Course in Del Ray Beach at the Duncan Center. People would fly into West Palm Beach or Ft. Lauderdale.
Jeff Murphy	Lexington will have a RC over Labor Day in Sept.
Raja Rogers	Thank you again for the birthday gift. There was a celebration on the Global Family Chat. Dori's birthday was on the same day. Today it is Raj Rajeshwari Lindsay's birthday (Raja Rogers' sister-in-law). Jai Guru Dev
